

DISCOVER SEAMLESS INTERMODAL CONNECTIONS AT JAXPORT

#XMARKSTHESPOT FOR YOUR RAIL SHIPMENTS

Jacksonville offers integrated intermodal services, connecting your freight over rail with markets throughout the Eastern and Central U.S.

JAX RAIL: POWERING CONNECTIONS

JAXPORT terminals integrate with 40 daily trains via Class I rail lines CSX and Norfolk Southern, regional line Florida East Coast Railway and on-dock rail provider Watco. This extensive connectivity ensures your cargo moves efficiently and reliably.

DOUBLE THE INTERMODAL ADVANTAGE

JAXPORT offers two intermodal container transfer facilities – an on-dock railyard at the Talleyrand Marine Terminal, and a near-dock rail facility at the Dames Point Marine Terminal, providing flexibility and convenience for your shipments.

XPRESS RAIL-DRAY PROGRAM

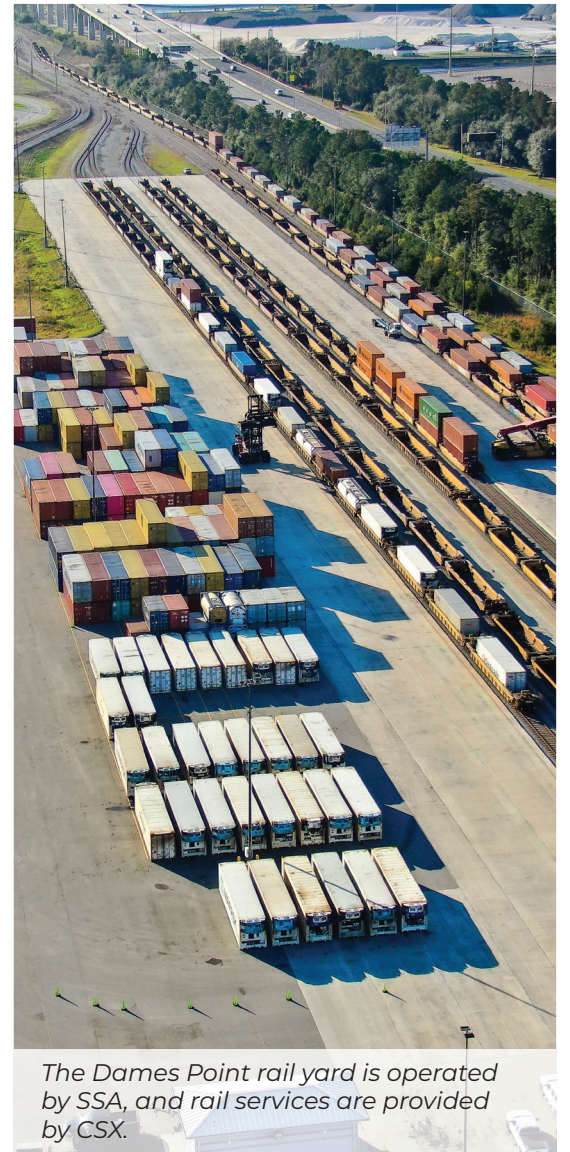

The Xpress Rail-Dray program, offered by SSA Jacksonville, provides a turnkey, all-in rate for a 10- to 20-minute dray between JAXPORT's intermodal rail facility at Dames Point and JAXPORT's cargo terminals.

READY TO ROLL HIGH AND WIDE

With the highest and widest cargo clearance available on CSX's national system (20 feet high and 13 feet wide), JAXPORT can accommodate your largest shipments with ease.

REINFORCED ON-DOCK RAIL

The heavy lift berth at JAXPORT's Blount Island Marine Terminal features a high weight-bearing capacity dock, offering up to 2,000 pounds per square foot of load capacity and 78 kips per axle for heavy cargo, facilitating safe and reliable handling of your heaviest intermodal freight.

The Dames Point rail yard is operated by SSA, and rail services are provided by CSX.
